

SEXY SUMMER

HAIR

You want your hair to be like your vacation—low maintenance and *loong*. Here's how to get it.

protect

When it's hot and humid out, a frizz-fighting cream does double duty as a hair moisturizer. Scrunch a quarter-size amount through damp hair.

try: Kimble Hair Care Systems Hair Butter, \$12, target.com

17 TIP

Look for a brush with round ball-tipped bristles—it will be gentle on your scalp and won't snag or break hair.

brush

After applying styling cream, brush your hair with a wide-paddle brush to detangle strands and evenly distribute the product.

try: Sephora Brand Paddle Brush, \$32, sephora.com

texturize

Once hair has dried, mist your whole head with a salt spray—it will bring out waves even more and give them that sexy, piecey look.

try: Oscar Blandi Onde Wave Enhancing Spray, \$18, Sephora stores

17 TIP

Give curling and straightening irons a rest—the sun is already drying out your hair, and all that heat can cause serious damage.
